Experience

• CDI -NATION- Enugu, Nigeria (Ongoing Project) Frontend Developer

CDI known as chapel of divine inspiration is a Christian ministry in Nigeria with its headquarter at Enugu.

- Created reusable components using React.
- Used Vanilla CSS for styling.
- Writing usable and scalable codes.
- Ensure the technical feasibility of the UI/UX designs.
- Used Firebase to store user information.
- Used firebase to create admin authentication.
- Technology used JavaScript, React, CSS, HTML.

• Exagorazotechhub Enugu (Hybrid) Frontend Mentor

SEPTEMBER 2023-JANUARY 2024

Exagorazo is a tech institution offering courses in frontend and backend development, UI/UX design, and data analysis to prepare students for careers in tech.

- Provided personalized mentorship and guidance to students, helping them master HTML, CSS, JavaScript, and React, which led to high course completion rates and strong student satisfaction.
- Designed and implemented a dynamic, project-based curriculum that enhanced student engagement and learning outcomes in frontend development.
- Developed comprehensive learning materials, including tutorials, coding exercises, and project guides, that simplified complex concepts and improved student understanding.
- Encouraged peer learning and collaboration through group projects and code reviews, fostering a supportive learning environment that boosted student confidence and skills.

All freelance and featured projects can be found in my portfolio.

- LaLibreria Bocas, Queer Island Bookstore of Bocas del Toro. (Remote)

March 2022-AUGUST 2022

Wordpress Developer

LaLibreria Bocas is an online book store

- Built and managed the e-commerce website, incorporating all aspects of the business's unique branding and vision.
- Implemented a robust and user-friendly ordering system that streamlined the process of taking and fulfilling customer orders.
- Set up multiple payment options, including credit card processing, PayPal, and bank transfers, to provide customers with a seamless and secure checkout experience.
- Wrote all of the copy for the website, incorporating keywords and phrases optimized for search engines to drive traffic and improve visibility
- Utilized various optimization techniques to improve website speed, resulting in faster page load times and a better overall user experience
- Strengthened the website's security measures to prevent hacking and other malicious activities, ensuring that customer information and transactions remained safe and secure.
